SUBJECT: (S) GERMANY WILL INVESTIGATE SHIPMENT OF
PROLIFERATION CONCERN DESTINED FOR PAKISTAN

REF: STATE 772

Classified By: EMIN Robert A. Pollard for reasons 1.4
(b) and (d).

¶1. (S) Global Affairs Officer delivered reftel demarche January 4 to MFA Export Control Division Desk Officer Nancy Reck. Reck undertook to pass the information immediately to the German interagency export control working group. Reck said German export control officials are well aware of the risks posed by Pakistan's proliferation efforts. She confirmed that German officials would investigate the matter.

¶2. (S) Responding to reftel points, Reck noted that Siemens controllers are "available worldwide." She speculated that German officials would instead focus their investigation on the extent of the involvement of the German company Spinner Werkzeugmaschinenfabrik GmbH - the manufacturer of the computer numerically controlled (CNC) five-axis machining center. Reck thought she recognized the name of the Pakistani end-user, New Auto Engineering, but could not immediately confirm whether the entity is included on the German Government's Early Warning List.

¶3. (S) Post will report any subsequent German response septel.
